

## WHAT IS AMHOP?

---

The Alliance of Masonry Heater and Oven Professionals (AMHOP) is a professional organization devoted entirely to the promotion, improvement, and education of those interested in masonry heaters and ovens.

Membership participation in AMHOP activities, meetings and discussions are foremost in this art, craft, science and business. AMHOP members are uniquely devoted to the oven and masonry heater industry. They deal with masonry heater and oven design, construction, regulation, sales and promotion on a daily basis. AMHOP is non-profit business association funded by membership support.

## AMHOP MISSION STATEMENT

The Alliance of Masonry Heater and Oven Professionals (AMHOP) is an association of businesses committed to furthering the masonry heater and oven industry within the hearth industry. We engage in the technical, educational, legislative, regulatory, and promotional realms. Our goal is to provide the communities we serve with the highest quality products possible by encouraging and providing for the professional development of our member businesses and those who serve in them.

## THE ALLIANCE OF MASONRY HEATER AND OVEN PROFESSIONALS IS. . .

**A SOCIETY OF** professionals devoted to both the business and craft of masonry heaters and masonry ovens. Alliance of Masonry Heater and Oven Professionals Inc. (AMHOP) members know what it takes to run a business. It requires dedication, education and commitment to be the best in any venture. That's why members of AMHOP are always looking for a new angle, new viewpoint, and new source of knowledge that can improve both the ovens and stoves they build and the degree to which they can build their businesses.

In America, masonry heaters are less known than in Europe, where they first evolved. That's why individual businesses have banded together under AMHOP to promote the industry throughout the North American continent.

**AN ETHICAL ORGANIZATION** of individuals and companies who know that consumers and fellow businessmen alike want to know that those with whom they work aspire to be truthful and utterly responsible in all their transactions. To this end, AMHOP has a complete Code of Ethics signed by each and every member. The Code of Ethics outlines a complete complaint procedure to assure consumers and other businesses that valid issues with any AMHOP members will be fully and fairly reviewed

and resolved in a timely manner. Our goal as an organization is to present to the general public the "cream of the crop" of masonry heater and masonry oven professionals—individuals and businesses working forthrightly in all their dealings.

AMHOP members are:

- Properly insured
- Professionally trained
- Following proper codes and ordinances
- Expertly educated and certified
